

IXXcreates started in 2010 as a Dutch design-studio setting up creative projects to develop sustainable textile products. From day 1 we decided to dedicate our talents to create projects that contribute to a 'healthy & wealthy' life on earth! Ever since we stayed true to our vision and we accomplished to translate our inspiring ideas into productive collaborations and high-quality design-products. The entire chain is in our own hands and we aim for 100% PURE luxury in every single part of it.

Our products are labeled **IXX**. This symbolizes the fact that they came across by authentic individuals joining forces: the synergy between 'me' (I) and 'the other' (X and X) shows that 'the whole is greater than the sum of its parts'.

Our pioneering work 'behind the scenes' is paying off and we now have an inspiring story to tell, a beautiful product to market and a business to grow. We have successfully launched Dutch designed, Indian handcrafted home- and fashion-accessories made from organic cotton – IXXmeetsINDIA.com
